## AGILE LAPTOP STAND

Suitable for 15" laptops.

Not just another laptop stand! This is your ergonomic interface between you and your laptop. Agile affixes to your laptop stand to ensure you are never without your ergonomic solution.

The Agile laptop stand from the Ergonomic Cafe fits almost any 15" laptop, and can be transferred to another laptop easily. This innovative product boasts 2 impressive benefits for its user.

- First is the option to deploy the 'Smart Type' arms, which slightly raise the rear of the laptop to improve the viewing and typing angles for direct use of the laptop.
- Second are the 4 higher angles offered by the 'Smart Set' system for use with an external keyboard and mouse. Simply choose the setting which best suits your personal requirements, then each time you pull the 'Smart Set' handle the stand will automatically deploy to your chosen setting.

For these outstanding benefits the Agile laptop solution has been awarded the coveted FIRA ERGONOMIC EXCELLENCE AWARD for the unique and outstanding ergonomic benefits it offers the user.

Whilst typing, position the laptop and Agile stand at the front of the desk.

Benefits:

- Folds flat for easy transportation
- Smart Set system
- Extremely lightweight just 225 grams
- 1 typing setting at 22°
- 4 angle settings from 26° to 56°.

Compactly folds to just 3.6mm and weight just 225 grams!

Innovative design ensures all ports and sockets are not obscured.
