## U TOP PRO laptop stand with improved document holder and 'quick lock' support arms.

The U TOP PRO is possibly the lightest and thinnest freestanding laptop stand in the World. This stylish product boasts a unique built-in copy holder, 6 height settings, 4 cable slots and non-slip feet. The U TOP PRO is an improved version of the original U TOP which was awarded Editor's Choice' by Macworld Magazine.

The **U TOP PRO** laptop stand is designed to offer the essential considerations of; portability, adjustment, weight, strength and design to make a complete product.

The **U TOP PRO** has six levels of height adjustment raising the screen to a comfortable viewing level, therefore improving posture. In addition the new **U TOP PRO** has an improved document holder that you can choose to deploy when required (if you don't require it, then it's not in your way). All this and it still folds totally flat to fit snugly inside your laptop case. And unlike other stands, the design of the laptop support legs will not limit access to ports and switched positioned at the front of your laptop.

- Document Holder also capable of supporting books
- Six height settings from 32 to 48°
- Easy set-up
- Folds flat for transportation and storage
- Non-slip rubber feet
- 4 Cable storage slots
- Light weight less than 250Grams, and only 250mm x 300mm x 5mm
