## 1. Description

Sector antenna enclosure working in 2,3 GHz band with two independent sector antennas with 15 dBi gain with vertical and horizontal polarization. It is the ideal solution for MIMO and Nstreme dual configuration. There is a mounting kit for Ubiquiti Rocket optionally. Perfectly designed for operation under severe weather conditions. A proper materials allow operation in the salt water environment without corrosion. Professional mounting system with 0-15 degrees scale guarantees easy and smooth tilt down as well as rock-stable operation. Also available with stainless steel mounting hardware.
