

MOTION SENSOR INTELLIGENCE

Jabra Motion is the ultimate headset featuring a unique intelligent motion sensor that allows you to effortlessly take or make that important call wherever you are. Featuring the best that the latest technology has to offer, Jabra Motion is above and beyond your expectations.

With the built-in motion sensor and advanced microphones, Jabra Motion intelligently adapts to your surroundings when you're on-the-go or working in the office. The unique flip-boom arm has integrated wind-noise protection technology, so you don't have to worry about noise interference during your calls even in windy conditions. With Jabra Motion you get the best-in-class sound experience delivered through advanced patent pending technologies.

The motion sensor also adds to the intuitive handling of your incoming and outgoing calls – simply pick up the headset and put it on your ear to automatically answer a call. But if your hands are busy, it's as easy as using your voice to control the headset. Whichever way suits you the best in a given moment, you're free to carry on with your daily tasks.

Jabra Motion has been designed with your personalized comfort in mind – with Jabra's legacy of the behind-the-ear wearing style and unique height adjustment of the speaker-tower, you can wear the headset in a way that makes you feel most comfortable. And when you're done using it, simply fold the flip-boom arm and put the headset in your pocket to take it with you.

Jabra Motion also features NFC technology* for easy pairing - simply tap the headset on your smartphone and you're easily connected to take and make calls or stream your favorite multimedia – music, GPS and podcasts. It's really the only headset you'll ever need!

REASONS TO CHOOSE THE JABRA MOTION

- Sound adapts to motion and environment**
- Intuitive flip-boom with wind-noise protection**
- Personalized comfort – adapts to any ear

*Device dependent **Patent pending

LEARN MORE!

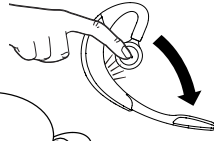

QUICK START GUIDE - GET STARTED UNDER 5 MINUTES

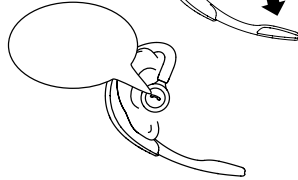

1 CONNECTING

CONNECTING WITH A BLUETOOTH DEVICE

1. While pressing the Call button, open the flip boom-arm. Release the Call button when the Bluetooth light flashes blue.

2. Wear on the ear and follow the voice-guided connection instructions.

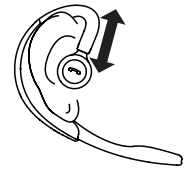

CONNECTING WITH AN NFC DEVICE

To pair using an NFC-enabled device, refer to the online user manual.

2 WEARING

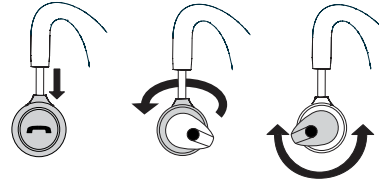

HEIGHT ADJUSTMENT

Get the perfect fit for your ear by adjusting the height of the speaker up or down.

LEFT OR RIGHT EAR WEARING STYLE

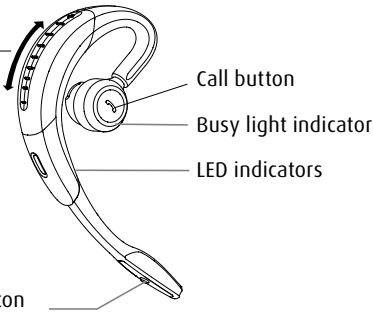

- The headset can be worn on the left or right ear. To switch ear:
1. Pull the speaker all the way down.
 2. Rotate the speaker 180°.
 3. Twist the eargel around to fit.

3 USING

Volume touch-sensitive panel

Voice and Mute microphone button

DID YOU KNOW?

You can download the User Manual at jabra.com/motion to learn more about additional features such as Advanced MultiUse, NFC and motion sensor interactivity. The Jabra Connect app is now available for your android or iOS device.

	On/off	Open or close the flip boom-arm
