Brilliant WQHD Resolution. The More, The Better. | Edge-to-Edge Frameless Bezel, Viewing With No Boundaries | Wider Viewing Angles With SuperClear® Technology | Enjoy The Lifelike Imagery of 10-Bit Colour | Flexible and Efficient Connections for All Your Needs

Product Description

The ViewSonic VG2765 is a versatile 27" WQHD monitor with a borderless bezel designed for office work. The monitor's panel utilises SuperClear® IPS panel technology and features an upgraded 2560 x 1440 WQHD resolution, for sharper image quality from virtually any viewing angle. The panel also allows more content to be displayed on-screen, which reduces scrolling. VG2765's edge-to-edge frameless panel and ergonomic design allows users to setup multiple monitors side-by-side for an improved workflow. Built-in HDMI, DisplayPort & Mini DisplayPort inputs offer versatile connectivity options, including compatibility with MacBook and Ultrabook. The monitor's Flicker-Free and Blue Light Filter eye-care technologies create a more comfortable viewing experience by reducing eye strain from extended periods of viewing. In addition, ViewSonic's proprietary ViewSplit software is available for free and allows users to organize and divide their screen into multiple segments according to their ideal working arrangement.
